

## The International Citroën SM Meeting 2019 takes place in Hamburg from 07. – 10. Juni 2019

The Citroën SM-Club Germany e. V. invites all friends of this beautiful vehicle to the beautiful city of Hamburg. The Hamburg people call it „the most beautiful city in the world“. Freedom and tolerance have always been the attributes of Hamburg, 25 % of the population have foreign roots, which was certainly favored by the long trading history since the time of the Hanseatic League. This led to a cosmopolitan attitude, which is still felt today in the city.

### A couple of facts:

- With about 1.8 million inhabitants, Hamburg is the second largest city in Germany after Berlin.
- Hamburg is the eighth largest city in the EU and the largest city, that is not the capital of a Member State.
- Hamburg is the center of the metropolitan region of Hamburg, which has about 5 million inhabitants.
- Hamburg is the third largest port in the EU after Rotterdam and Antwerp.
- Hamburg is the third largest musical location in the world after New York and London. Four large theaters with more than 7000 seats are located in the city. With the new Elbphilharmonie and the Laeizhalle there are another 5000 seats available for concerts.
- Hamburg has 19 universities with more than 75.000 students.
- Hamburg is one of the economically dynamic regions in the Federal Republic of Germany. The port, trade and service as well as the industry provide for this dynamic. Mechanical engineering, aerospace engineering are located here.
